

PROPOSED RESIDENTIAL
DEVELOPMENT ON LAND OFF
CANTERBURY ROAD, KENNINGTON

PUBLIC CONSULTATION

YOUR VIEW MATTERS TO US

Thank you for taking the time to read this information leaflet regarding a proposed residential development at Kennington. This consultation offers you the opportunity to let us know your views and thoughts as we continue to form our proposals. What you have to say means a great deal to us and can influence and shape the future of your community.

We appreciate that people who live within the immediate vicinity of our housing proposals may be concerned about matters such as increased levels of road traffic, loss of views and many other topics. In order to help address these concerns, we have put together a 'your questions answered' section within this leaflet and further information can be found on our dedicated website; the address can be found at the back of this leaflet.

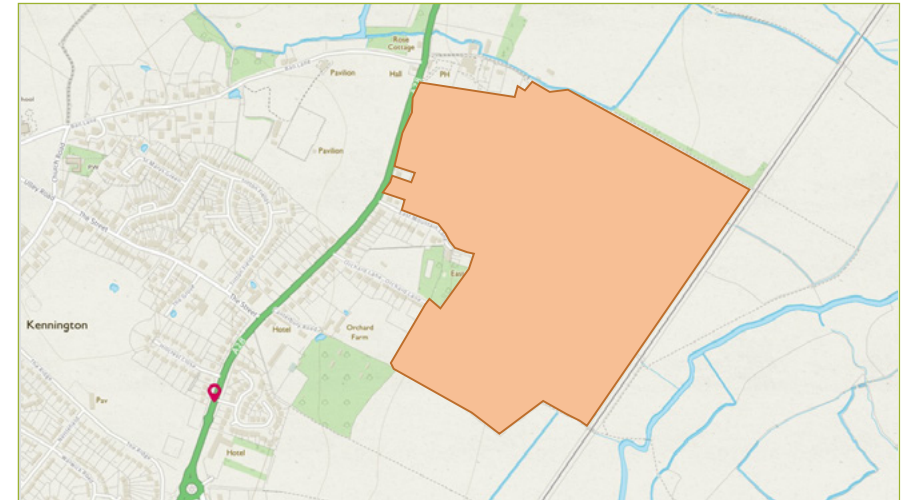

WHO ARE GLADMAN?

Gladman is a family-run business with over 30 years of experience within the land and development industry. We are the most successful land promoter in the UK, obtaining planning permission on over 90% of the sites we promote.

OUR APPROACH

Gladman recognises its responsibility to respect the character of the area and needs of the existing community, as well as providing housing for new and existing residents. We are also fully committed to delivering additional benefits to Kennington wherever possible.

Your comments and contributions will be received without prejudice to your rights to comment on the planning application. By having your say, you will have helped shape the development's design and, where appropriate, off-site improvements if planning permission is granted.

OUR DEVELOPMENT PROPOSAL

A residential development to include:

- Up to 625 new homes of varying sizes, types and tenures (including upto 35% affordable housing);
- Facilities which could benefit the new and existing community including; an A1 retail unit, land for a community building and GP surgery;
- New publicly accessible greenspace in the form of tree & hedgerow planting, new ponds, play areas and footpaths;
- A new four arm roundabout off Canterbury Road with pedestrian access;
- New Park and Ride to serve commuters and visitors along Canterbury Road (A28) connecting the site to Ashford;
- A sustainable drainage solution to manage surface water run off, such as attenuation basins or ponds.

HOW COULD KENNINGTON BENEFIT?

The proposed development has the potential to deliver the following benefits:

- A high quality landscape setting comprising informal public open space which will be of benefit to both existing and future residents of Kennington;
- New Park and Ride to serve commuters and visitors along Canterbury Road (A28);
- New formal public open space, footpaths and cycle links for residents to enjoy;
- Fully equipped play spaces to cater for a range of ages;
- 35% affordable housing (up to 219 units) to help those wanting to get onto the property ladder within your community;
- New high quality housing;
- Potential contributions to existing public facilities within Kennington;
- Increased customers and spending to support local businesses;
- A1 Retail unit; and
- Land for a Community building and GP Surgery.

We believe that a development should provide an opportunity to improve the range and quality of services that are available in Kennington. We would be very interested to hear your views on any additional services or improvements that would be of value to your community.

PROPOSED DEVELOPMENT FRAMEWORK

The Framework Plan shows how the site could be brought forward and incorporates the constraints and opportunities identified through our initial assessments.

YOUR QUESTIONS ANSWERED...

Why Kennington?

The proposed site is a suitable and sustainable location for new development. We believe that new homes will enhance the area and support its existing services and facilities. You could use this consultation as a means to shape how the proposal will progress and influence the growth of Kennington.

Will our roads be able to cope?

There are sometimes concerns associated with an increase in traffic as a result of a proposed development. Our specialist highways consultants work with your local highways authority to ensure that the development can be accommodated, taking into account any proposed improvements.

Access to the site is proposed off Canterbury Road through the creation of a new roundabout. This is considered the safest and most appropriate location to access the site and will be discussed with the local highways authority.

The Park and Ride will provide sustainable travel and reduce car travel into the town centre. Approximately 300 parking spaces to be located to the north of the site to complement a new frequent bus service.

What kind of housing will be provided?

The proposed development will be a mix of sizes, catering for all members of the community. Alongside market housing, the development will also provide up to 35% affordable homes, which will allow those such as first time buyers greater scope to remain in the area. The range of affordable homes, as defined by government, is expected to be shared ownership, discounted open market and rented homes. The exact mix of house sizes and tenures will be agreed in negotiation with your local authority housing team.

YOUR QUESTIONS ANSWERED...

Will our local services be able to cope?

Local businesses such as shops, the Post Office and public houses are likely to benefit from the additional custom that the development will generate; therefore, boosting the local economy and ensuring the future viability of these services.

Will it increase the risk of flooding?

We conduct in-depth research into the risk of flooding and mitigate any risk that is identified. All built development lies within Flood Zone 1, the lowest category of flood risk.

Our surface water strategy is to ensure that no more water runs off the site post development than currently is the case. This will be achieved through creating basins on site to hold surface water run-off, before controlling the release of this water through infiltration or into the existing water network.

What would this mean for the local economy?

After some preliminary research, taking into account the increase in people working from home, the proposed development could lead to a significant boost in local spending and a potential reduction in commuter levels to surrounding employment areas. There is an indication that the gross spending power of the new residents could be in excess of £21.2 million per annum.

YOUR QUESTIONS ANSWERED...

Will our services be able to cope?

Often people are concerned that the proposed new development will put pressure on the local services. As a result, financial contributions will be made where there is a need to increase capacity in these services, such as the local schools.

The need for and quantum of such contributions will be ascertained as the proposals progress through the application process. For example, if it is deemed the school does not already have sufficient capacity and planning permission is granted, a contribution will be paid to the local education authority to ensure that sufficient school places are made available through the provision of new classrooms.

What impact will it have on our environment?

The site is currently agricultural land and is therefore home to very few species of plants or wildlife. It is accepted by wildlife experts that suburban gardens, balancing ponds and green spaces on new developments provide a home to a vastly greater range of wildlife and flora than any farmed field. Therefore the range of biodiversity will be greatly increased by our proposals.

A specialist ecology consultant has been appointed to survey the proposed site for protected species. To ensure that we have comprehensively evaluated the site for ecology and wildlife, additional surveys will take place prior to the determination of the planning application. Whilst the additional surveys may identify that there are protected species on-site, the development proposals will provide adequate mitigation, and wherever possible enhancement, to ensure these species are protected.

As part of our proposals we aim to increase the biodiversity through the introduction of significant areas of new green infrastructure. This will comprise of new publicly accessible greenspace, including the creation of wildflower meadows and managed grassland, the retention of trees, hedgerows and additional planting.

WHAT HAPPENS NEXT?

We are in the early stages of preparing a planning application for Kennington and this consultation is part of that process. We will carefully consider your responses and use these to finalise our proposals.

A range of assessments and reports on matters such as ecology, heritage, flooding, highways and landscape will further help shape our proposals.

There will be an opportunity for you to make formal representations to Ashford Borough Council once an application has been submitted and before a decision on the proposal is made.

YOUR VIEWS ARE IMPORTANT TO US

You can keep up to date on our progress using our dedicated website which includes an online feedback form for making comments:

Submit your comments and find out more on our website:

www.your-views.co.uk/kennington

Alternatively, contact us by email: comments@your-views.co.uk (please use "Kennington" as the subject line)

Or, write to us:

Your Views; Kennington
Gladman House,
Alexandria Way,
Congleton,
Cheshire,

Gladman consider all correspondence received and our response to the issues raised will be set out in a Statement of Community Involvement (SCI). As part of a planning application, Gladman submit to the Local Planning Authority a complete copy of all correspondence received (including any details such as your name, address and email where you have provided them). This ensures all your comments are available to the Council during the consideration of an application and shows who we have consulted. As the SCI forms part of the formal application documents, the Council may publish it online, subject to their own Data Protection policies. Should the application be the subject of an appeal, the same information will be forwarded to the Planning Inspectorate. If further consultation is carried out as part of the planning process, Gladman may use your details to make you aware of this and to ask for your views, but will not use this information for any other purpose.
